Keep the contents of this box dry and out of reach of children and pets. Some items are flammable, please refer to the labels on the packaging for detailed care instructions.

FORM & STEM

An original Whole Verse piece, designed for your table.

Designed, made and assembled by Whole Verse, Form & Stem is our first original piece. Created from sculptural forms, considered proportions and pieces made to live together beautifully.
Each piece has been developed with the everyday table in mind: to be used, styled, rearranged and made your own.

FORM & STEM

A Textured Sculptural Table Set

A NOTE ON THE FINISH

Form & Stem is made to be lived with and enjoyed slowly. Each piece has a tactile, sculptural finish. Small variations in texture, tone and surface detail are part of its character. Kindly use for dry flowers, faux stems and decorative use only. Do not fill the vessel directly with water.

Important safety information

1. Form & Stem is for indoor decorative use only.
2. Keep all pieces away from children and pets.
3. Do not place directly on delicate, unprotected or heat-sensitive surfaces.
4. Do not use the vessels for food, drink or serving.
5. Do not use the vessels with water.
6. Never leave burning candles unattended.
7. Do not touch or move glass inserts while hot.
8. Stop using any piece that has cracked, chipped significantly or become damaged.

1 Before you begin

Please unpack each piece carefully and keep this guide for future reference.

- Place each item on a stable, level surface.
- Lift pieces into place; do not drag them across a table, shelf or countertop.
- Keep the sculptural outer pieces indoors and dry.
- Handle with care. Decorative cast pieces can chip, crack or break if dropped or knocked.

Form & Stem is decorative homeware. It is not food-safe and should not be used for serving food or drink.

2 Styling the vessels

For dry and decorative use only.
The sculptural vessels are designed for:

- Dried flowers.
- Faux stems.
- Decorative branches.
- Fully dry artificial florals.

Do not fill the vessels directly with water.
Do not use fresh flowers, wet stems, damp floral foam or water-filled containers inside the vessels. Keep the outer pieces dry and wipe away any accidental spills immediately.

3 Using the removable stem support

If included, your set includes a removable stem support, designed to help dry stems sit upright and stay in place.

1. Place the stem support carefully inside the vessel.
2. Insert fully dry stems through the openings.
3. Adjust gently until your arrangement feels balanced.
4. Remove the support carefully before changing your stems or cleaning the vessel.

The stem support is not a watertight liner. Do not fill it with water and do not use it with fresh flowers.

4 A note on arranging

For the best result, begin with a few stems rather than filling the vessel at once. Vary the height and direction slightly, then step back and adjust until the arrangement feels natural. Avoid using sharp, heavy or rough stems that may scratch the interior surface.

5 Using the candle holders

Each candle holder includes a removable glass insert.

Always place the candle inside the glass insert—never directly into the sculptural holder.

Before lighting

- Place the candle holder on a stable, level, heat-resistant surface.
- Ensure the glass insert is clean, dry and sitting securely in the holder.
- Keep the candle upright and centred in the glass insert.
- Trim the wick to approximately 5 mm before lighting.

- Keep away from flowers, dried foliage, fabric, curtains, children, pets and other flammable materials.

While burning

- Never leave a burning candle unattended.
- Do not move the candle holder while the candle is lit or while the glass is hot.
- Burn for no more than 3–4 hours at one time.
- Keep the flame away from the edge of the glass.
- Extinguish the candle if the flame becomes unusually high, smokes heavily or flickers excessively.
- Keep candles at least 10 cm apart when burning more than one at a time.
- Avoid placing candle holders in a draft, near an open window or beneath shelves.

After use

- Extinguish the candle and allow the wax and glass insert to cool completely before touching or moving it.
- Once cool, remove the glass insert carefully.
- Remove loose wax gently with your fingers or a soft, non-abrasive tool.
- Do not use sharp objects to remove wax.
- If needed, wash the glass insert separately with warm water and mild washing-up liquid.
- Dry the insert completely before returning it to the candle holder.

Never wash, soak or rinse the sculptural holder itself.

6 Cleaning and care

Sculptural outer pieces

- Dust regularly with a soft, dry microfibre cloth.
- For a small mark, wipe gently with a lightly damp cloth, then dry immediately with a clean cloth.
- Do not soak or rinse under running water.
- Do not place in a dishwasher or microwave.
- Do not use outdoors.
- Do not use abrasive pads, bleach, solvents, harsh sprays or strong cleaning products.
- Keep away from prolonged humidity, bathrooms and damp areas.
- Keep away from direct water contact.

Removable stem support

- Dust with a soft, dry cloth.
- Wipe gently with a lightly damp cloth if needed, then dry fully before returning it to the vessel.
- Do not use with water or fresh flowers.
- Do not expose to heat, open flame or a dishwasher.

Glass candle inserts

- Allow to cool fully before handling.
- Wash separately by hand if required.
- Dry completely before placing back into the sculptural holder.
- Do not use a chipped, cracked or damaged glass insert.
- Replace the insert if it becomes damaged.

A verse from you means everything to us.
